

# Independent Investigation

Name \_\_\_\_\_

## **Question**

What do you want to find out?

## **Hypothesis**

What do you think will happen?

## **Procedure**

Design your experiment! Write the steps for your experiment in the space below.

## **Safety Rules**

What safety rules do you need to follow during your experiment?

## **Data**

Create a table, chart, or graph to record your data.

## **Conclusion/Analysis**

What did you find out? Did your results support your hypothesis? Are your results reliable?
